

Topic	Result indicator as in the Twinning Fiche	Result achieved	Note/Explanation of potential discrepancies between the mandatory and actual results
Business Statistics			
SBR			
	Characteristics on more Enterprise groups available in SBR	Result achieved	More Enterprise Groups is created and included in SBR
	Guidelines and description of the profiling process for large and complex Enterprise available developed	Result achieved	Guidelines (<i>no procedure fits all</i>) provided from both Finland and Denmark (via SBS)
	New BD variables produced and delivered to Eurostat.	Result not achieved as removed from the project	On SCM no1 the result was suggested and agreed to be removed from the project
SBS			
	First variables for Section K published and delivered to Eurostat	Result partly achieved	Variables defined, but before publishing and transmitting to Eurostat, two years of experimental calculation need to be carried out and analyzed.
	Methodology and procedures for the consolidation of structural business statistics variables for statistical unit enterprise developed and available	Result achieved	-
Short Term Statistics			
WSTD	Deflator for wholesale trade and trade and repair of motor vehicles (G45, G46) prepared	Result achieved	Deflators for wholesale trade and for trade and repair of motor vehicles (NACE G45 and G46) have been prepared using the most appropriate price indices.
SPPI	New Service Producer Price Indices (SPPIs) published and sent to Eurostat	Results partly achieved	New pilot SPPI surveys for NACE activities J62, M69, M70.2 and M73 were introduced in the first quarter of 2024 based on work/progress done during the previous Twinning project. No missions on SPPI were carried out during the current project. Regular SPPI surveys has been established starting

			from Q1 2025. Data are currently being collected but not yet published or transmitted to Eurostat. Main reason is the change to a new base year (2025). Data transmission to Eurostat is expected once the re-basing process is completed.
CREI	CREI indicator published and sent to Eurostat	Result achieved	BiH is ready to collect, publish and transmit data to Eurostat, if and when relevant EU regulation is implemented

Tourism Statistics			
TSA	Report on available (data) sources in BiH for TSA prepared	Result achieved	Road Map, including available data sources in BiH, for TSA created
Information Society Statistics (ISS): Information and Communication Technology (ICT) Statistics			
ICT	Web link for ICT surveys available on the web sites of three statistical institutions in BiH	Result achieved	Web links have with success been used for data collection in the spring 2025
Statistics/Survey on Income and Living Conditions (SILC)			
	Preparation of quality report (QR)	Result partly achieved	Input (SILC indicator calculation made by Eurostat and compared with BiH own calculation) into the creation of 2022 data QR is awaited and an QR is expected to be prepared and transmitted by the end of 2026
	Creation of longitudinal weights	Result partly achieved	Input on the creation of longitudinal weights gained and the creation expected by the end of 2026
	Calculation of SILC indicators	Result partly achieved	Indicators are currently calculated by Eurostat because BiH don't have software that can handle SILC indicator calculation with expected/satisfactory results (output is not exactly the same as when calculated by Eurostat). BiH

			statisticians are working on a solution involving available software.
Balance of Payments (BoP) statistics			
	Pilot compilation of monthly BoP finalised	Result achieved	CBBH has the readiness to produce monthly BoP according to the data requirements defined in the BoP Vademecum with geographical distribution.
	Needs analysis completed and action plans for meeting requirements from BoP Vademecum prepared	Result achieved	Done – see above
	Need analysis and design of automated data for transmission for public finance and external statistics completed	Result partly achieved	Need analysis and design of automated data for transmission for public finance was not completed as the CBBH team participating in the project are not working with public finance statistics, but so is another team in the CBBH.
