Connection to Researcher servers at DST – Windows Users

This guide describes how to connect to our Researcher servers at Statistics Denmark – This includes both hosted and shared servers.

Start your preferred browser (e.g. Firefox, Edge or Google Chrome.)

Go to the following site: <u>https://remote.dst.dk</u>

The following image appears in the browser:

remote.dst.dk	× +
\leftrightarrow \rightarrow C $remote.dst.dl$	k/my.policy

Logon	

Enter your Researcher username (3 or 4 characters) under Username

Enter your 4-digit PIN code under Password

Then click Logon

If the following appears, or an equivalent for your choice of browser (the picture is from chrome) you have to click *Never*. **Do not save any passwords or pins for logins for Denmarks Statisticks!**

Enter yo	ur one-time pa	ssword.	
Logon			

After a few seconds, you will receive an SMS with a *one-time password*

Enter your one-time password (The input is case insensitive)

Then click *Logon*

If you are equipped with a token, you do not receive an SMS. Instead, you have to enter the 8-digit number, which your Entrust token shows as your *one-time password*.

The number will appear after a few seconds when you hold down the "BUTTON" on your token.

The following image will appear in the browser:

• Click Ja (Yes)

Now you are connecting to your server at Statistics Denmark.

Then your *Desktop* appears, and you can now operate your server.

After you finish your work on the server, you must sign out of the server.

You sign out of the server using the following steps:

- 1) Click on the windows icon
- 2) Click on the user icon
- 3) Click "Sign out"

Afterwards, click Logout in the top left corner of the Browser:
