Questions regarding the report: www.dst.dk/help

Dansk

English

If the company has more than 5 affiliates:

The statistic is an annual inventory of Danish foreign affiliates that are owned or controlled by a Danish parent company. The location (country), industry, employment, staffing costs, net turnover, and additions to tangible non-current assets of foreign affiliates are reported

As Statistics Denmark has knowledge of six or more foreign affiliates of the company, it is only possible to report via a pre-filled Excel spreadsheet which can be downloaded [here](#).
This solution has been created to reduce the respondent burden.

- To proceed, you must download an Excel sheet via this [link](#)
- The sheet contains prefilled information about the affiliates of which we have knowledge.
- Save the sheet on your PC.
- Fill out the sheet for all companies – including new affiliates.
- Finish the report by uploading the filled out sheet [here](#) ►

If the company has up to 5 affiliates:
The following overview is prefilled.

Overview of affiliates census year

Sequence no.	Country	Name
--------------	---------	------

Other affiliates

Does the company have other affiliates than the one(s) shown?

Include all foreign affiliates and branches in which the company has owned more than 50 per cent of the voting rights or has had direct or indirect controlling influence in the census year.

Yes

No

If 'Yes' to the question above:

- To proceed, you must download an Excel sheet via this [link](#)
- The sheet contains prefilled information about the affiliates of which we have knowledge.
- Save the sheet on your PC.
- Fill out the sheet for all companies – including new affiliates.
- Finish the report by uploading the filled out sheet [here](#) ►

If 'No' to the question above:
