

Newly enrolled Ph.D. students

The universities report all newly enrolled Ph.D.-students to Statistics Denmark
In order to collect all relevant data for the reporting, the universities may in some cases ask the students to answer the attached questionnaire.

The questionnaire is submitted to the Administration Department of the Educational Institution at which you are enrolled.

The institution ensures that this is reported to Statistics Denmark.

Copy of this questionnaire can be obtained at: www.dst.dk/phd.

Instructions

The light blue spaces of the questionnaire contain explanations and definitions that are linked to each question. More detailed definitions and examples are available from the electronically based instructions at: www.dst.dk/phd.

10. Thematic Research topics

Please state the percentage of the project's total research time which can be referred to individual research areas.

Please note that the list only includes selected research areas. The areas may overlap, implying that the percentages can add up to as well as add up below 100 pct.

Mark with an X in each line	No research	1-24 pct.	25-49 pct.	50-74 pct.	75-100 pct.
Green research and development	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Digitalisation	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

10. Sub thematic research topics

For a given theme, there can exist sub-themes. Currently, this applies to **Green research and development and Digitalisation**. If one of these themes has a research portion, the percentage shares for the sub-themes **must be filled out**.

Indicate how large a share of the research time can be attributed to each sub-theme. The sum of the percentage shares of the sub-themes must be 100%

Green research and development
