Preface

The *Statistical Yearbook 2012* gives a description of life and living conditions in Denmark. The figures show the development of Danish society year by year. This has been the case every year since the first edition of the *Statistical Yearbook*, dating back to 1896.

The *Statistical Yearbook* is the most comprehensive of the publications published by Statistics Denmark, and it reflects the majority of the statistics compiled by Statistics Denmark.

Approximately 160 of the specialists working at Statistics Denmark have contributed to the yearbook. Furthermore, the yearbook also presents data compiled by other Danish authorities and institutions.

The yearbook is accessible in pdf format as from the first edition in 1896 and up to the present day at www.dst.dk/aarbog. Here, it is also possible to retrieve tables by searching electronically via specific words.

Any changes or corrections made to the tables of the yearbook are also available on the website mentioned.

References to additional data, e.g. available in the database StatBank Denmark or from external sources are shown at the bottom of the tables and figures in the yearbook.

The English version of the yearbook is available in pdf format at www.dst.dk/yearbook.

The present yearbook is edited by Ulla Agerskov, Senior Adviser, and Margrethe Pihl Bisgaard, Senior Head Clerk. We always welcome any comments or suggestions from our users. Please e-mail your suggestions to mpb@dst.dk.

Statistical Yearbook is like the photo above that shows a small part of Copenhagen: A snapshot that reveals much about the Danes and the Danish society. Also, the yearbook describes the life in Denmark over time as regards population statistics, economy, culture, education, consumption etc.
